

Tips to Help You Reduce Your Risk of Silverfish Infestations

Our expert pest management technicians recommend these handy tips to help reduce your risk of silverfish infestations.

- ✔ Remove old stacks of newspapers, magazines, papers and fabrics to eliminate hiding places
- ✔ Don't let food sit & spoil for a long time
- ✔ Reduce water availability by repairing leaky plumbing
- ✔ Move them into a more easily controlled area by turn on lights in a dark, infested area
- ✔ Keep food in sealed containers and packages
- ✔ Lower the home's relative humidity, for example with a dehumidifier
